

Stockport MBC CDM Consultancy

Since 2001, Watts have provided CDM services to Stockport Metropolitan Borough Council including Planning Supervisor, CDM Coordinator, and more recently Principal Designer and Client Adviser services.

Schemes range from small refurbishments to multi million pound new build schemes on a range of differing property types including:

- Education establishments including nursery, primary, higher and further education levels.
- Civic buildings including Town Halls, libraries and art galleries.
- Residential properties including kitchen and bathroom renewals, rewires, heating upgrades, lift renewals, fire improvement works, external works including windows, doors and roofing and more recently the installation of solar panels.
- Highways and structures including junction improvements and bridge / retaining wall upgrades and new builds.

A recent commission involved the construction of Arden Primary School within the grounds of the existing school. This included significant ground remediation due to asbestos contamination.
