

Contract Administration

Watts' independent, multi-disciplinary approach provides a wide range of specialist knowledge and expertise required to successfully undertake, post appointment, the contract administrator's role in an impartial manner.

This is usually combined with the project manager's role pre-contract to provide a comprehensive cradle to grave service.

Our services:

- Obtain statutory consents
- Undertake design and specification duties
- Initiate and manage appointment of contractor
- Carry out feasibility studies
- Issue contractual certificates
- Identify and manage the making good of defects
- Post project review and evaluation
- Assess contractual claims
